⇒ If only one inhabitant and also living in another dwelling, skip to C8
⇒ If more than one inhabitant, skip to C1

C7 – Who is the main occupant of the dwelling?
For the interviewer: In principle, this is the owner or official tenant.

C8 – Is the dwelling we are in...
For the interviewer:
⇒ We are only interested in the household of the individual selected for interviewing
⇒ If no-one in the household lives in another private dwelling, the dwelling is the primary residence of the household (or households if more than one)
⇒ If at least one member of the household lives in another private dwelling, the aim is to determine the category of dwelling for the household (or for each household if there is more than one)

1. A primary residence
2. A dwelling used only occasionally
3. A secondary or vacation residence

1 The actual questions concerning household profile are placed at the end of the THL (they are maintained here but neutralized at 2 to avoid triggering the processing of separate budgets in different address files).
### 1.4 BLOCK D: OTHER DWELLINGS

If at least one person in the household reports living in another private dwelling (A16=1 for the members of respondent’s household):

You have told me that one or more persons living here also lives elsewhere.

For all persons listed in QUILOG, fill out the following table.

First, list NOMLOG and QUILOG recorded in the preceding table:

1\textsuperscript{st} line: 1\textsuperscript{st} dwelling designated in NOMLOG and 1\textsuperscript{st} person recorded in QUILOG (1\textsuperscript{st} box)

2\textsuperscript{nd} line: 1\textsuperscript{st} dwelling designated in NOMLOG and 2\textsuperscript{nd} person recorded in QUILOG (2\textsuperscript{nd} box)

etc., and then list the 2\textsuperscript{nd} dwelling and successively record the persons in the same way; continue to the last dwelling.
Start to fill out the table by noting the first names of the persons living in another dwelling (A16=1) and continue for each individual by asking in which dwelling identified in the preceding question he or she lives.

3. Student, pupil, trainee or in a paid internship
4. Unemployed (registered or not with the national unemployment agency)
5. Retired from business or in pre-retirement
6. Inactive
7. Other situation (disabled, etc.)

If there is only one person 15 years old or older in the household, questions E2 to E4 are not asked. Otherwise:

(E2) Can you tell me who currently provides the most income?

If the respondent asks what “currently” means:

Who provided the most income last month?

Note his or her NOI: _______ (and _______) If two persons provided an equal amount, note both persons.

(E3) Was this generally the case during the past twelve months; that is, since February 2006?

1. Yes ➔ next page ()
2. No

(E4) During the past year, who provided the most income?

1. a person in the household; note his or her NOI: _______
2. a person outside the household
1.6 VERIFICATION OF RESPONDENT AND CALCULATED VARIABLES

PREVIOUS DATA REMINDER:
- PRENOMBS: first name of the respondent
- SEXEBS: sex of the respondent
- ANAIBS: birth year of the respondent

Put them in the same format as the core variables: PRENOM, SEXE and ANAIS

Among all dwelling inhabitants, we look for the respondent:

⇒ If we find the person exactly identical to:
PRENOMBS = individual’s FIRST NAME, no. J of THL and SEXEBS = SEXE[J] and ANAIBS = ANAIS[J]
⇒ VERIFIN

⇒ If a person has the same first name but a different sex or birth date and is found in the survey age scope (i.e., born between 1948 and 1990, including these two years):
PRENOMBS = individual’s FIRST NAME, no. J of THL and SEXEBS <> SEXE[J] or ANAIBS <> ANAIS[J]

VERIF A For the interviewer:
In principle, you should question <PRENOMBS>, sex <SEXEBs>, born in <ANAIBS>. But in the inhabitant profile, this person is of sex <SEXE[J]>, born in <ANAIS[J]>. Do you confirm that this is the person to be questioned?

1. Yes ................................................................................................................................. □ 1
2. No ................................................................................................................................. □ 2
⇒ VERIFIN
⇒ End of survey

⇒ If no one in the dwelling has the correct first name (or the correct first name and a proper age)
PRENOMSB <> FIRST NAME of all THL individuals, then:

VERIF B For the interviewer:
In principle, you should question <PRENOMBS>, sex <SEXEBs>, born in <ANAIBS>. He/she does not appear in the profile of dwelling inhabitants. Are you sure of the first names in the THL?

1. Yes ................................................................................................................................. □ 1
2. No, go to the list to correct a first name ........................................................................ □ 2
⇒ VERIFC
⇒ Go back to THL list

VERIF C For the interviewer:
In principle, you should question <PRENOMBS>, sex <SEXEBs>, born in <ANAIBS>.
Tick the respondent if you recognize this person (spelling of first name is close and birth year is identical or close)
Instruction from Blaise: Display the list of persons in the PDI
1. <PRENOM1>, <SEX1>, born in <ANAIS1> ......................................................... □ 1
2. <PRENOM2>, <SEX2>, born in <ANAIS2> ......................................................... □ 2
.... □ 3
□ 4
□ 5
□ 6
□ 7
99. No one corresponds .................................................................................................. □ 99
⇒ VERIFIN
⇒ End of survey
In what follows, we will use the variables PRENOM, SEXE and ANAIS as first name, sex and birth year for the respondent and not those of the sampling frame (see below).

<table>
<thead>
<tr>
<th>CALCULATED VARIABLES AND CONTROL</th>
</tr>
</thead>
<tbody>
<tr>
<td>➔ NE: NOI of respondent (J of the answer to VERIFIN).</td>
</tr>
</tbody>
</table>

Variables pertaining to the respondent:
- A1, A2, etc., refer to the questions of the Block A table: A1_NE is thus the information found on the respondent’s line for question A1, i.e., the first name.
- In the same way, we use CJTE, PER, MER, PERC, MERC, NENF1, NENF2, etc., to index the information from the tables of preceding blocks concerning, respectively, the respondent’s partner, his or her father, mother, father of his or her partner, mother of his or her partner, his or her first child, second child, etc.

- ➔ PRENOME (first name of respondent): A1_NE
- ➔ SEXE (sex of respondent): A2_NE
- ➔ JNAISE / MNAISE / ANAISE (birth date of respondent): A3_NE
- ➔ LNAISE (birthplace of respondent): A4_NE
- ➔ DEPNAIS (birth department of respondent): A5_NE (refusal or don’t know possible)
- ➔ PAYNAIS (birth country of respondent): A6_NE (refusal or don’t know possible)
- ➔ INSTALLE (year of installation of respondent): A7_NE
- ➔ COUPLEEE (cohabitation status of respondent): B1_NE
- ➔ CJTE (NOI of respondent’s partner): B2_NE
- ➔ MATRIE (legal marital status of respondent): B3_NE
- ➔ MER1EE (place where respondent’s mother lives): B4_NE
- ➔ MER (NOI of respondent’s mother): B5_NE (don’t know possible)
- ➔ PER1EE (place where respondent’s father lives): B6_NE (don’t know possible)
- ➔ PER (NOI of respondent’s father): B7_NE
- ➔ SITUAEE (work situation of respondent): E1_NE

Variables pertaining to the partner living in the dwelling:
- ➔ PRENOMC (first name): A1_CJTE
- ➔ SEXEC (sex): A2_CJTE
- ➔ LNAISC (place of birth): A4_CJTE
- ➔ DEPNC (department of birth): A5_CJTE (refusal or don’t know possible)
- ➔ PAYSNC (country of birth): A6_CJTE (refusal or don’t know possible)
- ➔ MER1EC (place where mother lives): B4_CJTE (don’t know possible)
- ➔ MERC (NOI of mother): B5_CJTE
- ➔ PER1PC (place where father lives): B6_CJTE (don’t know possible)
- ➔ PERC (NOI of father): B7_CJTE
- ➔ SITUAC (work situation): E1_CJTE

Variables pertaining to parents of respondent’s partner living in the dwelling:
- ➔ LNAISPC (father’s place of birth): A4_PERC
- ➔ PAYSNPC (father’s country of birth): A6_PERC (refusal or don’t know possible)
- ➔ LNAISMC (mother’s place of birth): A4_MERC
PAYSNMC (mother’s country of birth): A6_MERC (refusal or don’t know possible)

For parents, calculated variables are indicated later.

Calculation and control:

- If \( LNAISE = 2 \) but \( PAYSNAIS \) is a DOM or TOM, then:
  - \( LNAISE \) becomes 1
  - \( DEPNAIS \) takes its value
  - \( PAYSNAIS \) becomes blank

- **AGENQ** (effective age of respondent at time of survey): It must be between 18 and 59 years, including these two years.

- **INSTALAG** (age on arrival, according to PDI): INSTALLI-BRTHYR

- **PIDOMNE** (detailed place of birth of respondent):
  - if \( LNAISE = 2 \), name of country of \( PAYSNAIS \) if country provided
  - “Your country of birth” if country not provided (refusal or don’t know)
  - if \( LNAISE = 1 \) and \( DEPNAIS > 95 \) (born in a DOM or TOM), name of DOM or TOM
  - otherwise “metropolitan France” (including if \( DEPNAIS \) not provided because of refusal or DK)

- **CPIDOM** (coded place of birth of respondent):
  - equals 2 if \( LNAISE = 2 \) (foreign-born)
  - equals 1 if \( LNAISE = 1 \) and \( DEPNAIS > 95 \) (born in DOM or TOM)
  - equals 0 otherwise (born in “metropolitan France”)

- **CPROP** (indicates whether respondent lives with his or her parents):
  Calculated from PROPLOC
  - equals 1 if one of the main occupants of the dwelling is the respondent’s father or mother
  - otherwise, equals 0 if one of the main occupants of the dwelling is the respondent or his or her partner
  - otherwise, equals 1 if a third party is the main occupant but the parents live in the same dwelling
  - otherwise, equals 0 if a third party is the main occupant
1.7 BLOCK Ca: HOUSEHOLD PROFILE

*** If there are at least two inhabitants in the dwelling ***

C1 / SEPRT We would now like to see who is part of your household and who is not. Among the inhabitants of this dwelling, are there persons who normally have a separate budget?

For the interviewer, at the least hesitation by the respondent, specify:

"A separate budget means that someone does not provide income for the household and does not benefit from money spent for the household, except for lodging. Persons with a separate budget can belong to another household or decide on their expenses by themselves and pay for them with their own personal income."

1. Yes, certain persons have a separate budget ................................................................. □ 1
2. No, everyone has a shared budget ................................................................................... □ 2

If yes, description of households living in the dwelling:

C2 - C3 - APARTQUI

Who shares the budget with you? that is, who contributes to the budget and benefits from it?

The household is the household of the individual chosen to be interviewed.

C. NEED FOR INTERPRETING

** For the interviewer if difficulties (At least 1 yes, don't know or refusal to LN 13 or FRAUJ=0 or 1)**

For the interviewer:
Are you currently with an interpreter? (including family interpreter)
1. Yes .................................................................................................................................................. □ 1
2. No.................................................................................................................................................. □ 2

*** If no and for the respondent (LN 14 / L_INTERPR = 2) ***

For the interviewer: do not ask this question unless an interpreter in the language is available; if not, tick item 3.

Would you like for me to come back another day with a translator of « LREF » to help with the interview?
If an interpreter is available and if the person requests one, you must try to contact an interpreter. This is very important for maintaining survey quality.
If no interpreters are available in your region for the language spoken by your respondent, continue the interview but in case of difficulty on certain questions:
- don't forget that you have a set of cards translated into different languages
- and two help pages giving the translation of the main key concepts of the survey that you may give to the respondent or use yourself.

1. Yes .................................................................................................................................................. □ 1
2. No .................................................................................................................................................. □ 2
3. No interpreter available for this language .................................................................................. □ 3

**CALCULATED VARIABLES**

Each time an respondent's child is noted on the THL (B5 or B7 equals NE; that is, the NOI of the respondent), these variables are created: NENF1, NENF2, etc. = child's NOI

**NBENFMEN** (number of respondent's children living in household): number of times NE appears in the B5 and B7 columns

For the first child and accordingly for the following children:

- PRENENF1 (first name): A1_NCHL1
- SEXENF1 (sex): A2_NCHL1
- ANAENF1 (birth year): A3_NCHL1, left during year
- LNENF1 (birthplace): A4_NCHL1

If NBENFMEN>0 and C_NBENF = NBENFMEN:

Thus, all your children live with you. We will now quickly fill in information concerning them.

If NBENFMEN = 0 and NBENF > 0:

We will now list your children.

If NBENFMEN > 0 and NBENF = don't know or refusal:

We will now fill in information concerning the children who live with you [List of first names of children living with the respondent: <PRENENF1, PRENENF2 and PRENENF3, etc.>].

CALCULATED VARIABLES

For the respondent’s first child (see THL) and accordingly for the following children:

- QENFA1: equals 1 if child eligible for “young worker” questionnaire: aged from 15 to 24 years (14<AENQ_ANAIENF<25) and working, unemployed or inactive (E_SITU= 1, 4, 5, 6, 7): 0 otherwise
- QENFB1: child eligible for “student, pupil, high-schooler” questionnaire: aged from 15 to 24 years (14<AENQ_ANAIENF<25) and is student, apprentice or intern (E_SITU= 2, 3)
- NBQA and NBQB = are respectively QCHLAn and QCHLBn.
- NBQENF = NBQA + NBQB, number of youth questionnaires to prepare
